### SUFFRAGE.

Now that the election is over in Kentucky and the heat of the political contest has cleared away, it occurs to us to be just and proper to make some comments on past elections and suggestions for the future. We do not pose as a moralist, nor as one skilled in ethics, but there are some things practiced in connection with our elections and which is being more indulged in year by year, and that is the awful thing of buying and selling human suffrage. To us it seems that there is no practice that is more detrimental to organized society and which is growing more enormous every year than this dangerous and malignant and cankerous practice of bribery in elections.

We may congratulate ourselves in Kentucky that there is shown a strong tendency toward fair elections, and the people have come out boldly against corrupt practices in politics and against machine methods and party bosses, but there remains yet this great evil to our electorate system that must be eradicated. The thing of buying a vote, purchasing from a man his most sacred heritage, dealing with him for that privilege for which his father died, and bringing him back to life, and then to let him live long will this last, and if not checked and destroyed to what end will it lead?

Another year will bring on our national election and with it the temptation to raise and distribute funds by all parties to win the race. Following this will come county and district elections in Kentucky, and with them the strong temptation to influence and corrupt the voters. What will the people do? May it be expected of them that the evil will be checked? Why not? The hour may be distant, yea, the possibility may be dreamily remote when these hopes can be realized, but we here call upon all persons to whom this message may come and ask that the appeal be repeated and sound again; whether you occupy the pulpit, or plead before the bar, or wield the silent form of the pen, or follow the charming pursuits of commerce; whether of high or humble station in life, let it be your present aim to free your country of this impending and growing evil of purchasing and selling human suffrage. Take up today this appeal.

For fresh groceries of all kinds at the lowest prices call on E. C. Combs.

### GET RICH QUICK.

Schemes of this class have again come to grief along with the gullible investors, causing serious loss to innocent business concerns, as is always the case of panics in Wall St.

While this last lesson is yet fresh in mind, it is an opportune moment to consider causes and means to avoid like trouble in the future.

Direct your attention to the greatest of all Newspapers the Cincinnati Enquirer. From its columns one can readily detect the trend of currency, its lodging places, by whom handled, uses made of it, and final result.

Again you read quotations of Bonds, Stocks, and Securities of every nature, fixing Status of all business from the retailer, to United States Government.

Also Current News, facts and reliable data covering the entire world; all sufficiently explicit to enable thinking people to avoid snags and follow the channel of success.

Its extra size and high price, is the secret of its ability to discover, obtain, print and serve its patrons with all the news, and cater to wants of people in every calling of life.

The Weekly Enquirer for the year 1908 has greatly increased its Clubbing offers which now include the most select and popular publications of the day at prices slightly over half the regular Subscription rates.

Do not overlook the fact that the year 1908 promises to excel in prosperity any of the past, and that the Enquirer printed at Cincinnati, Ohio, is one of the most reliable sources of information.

#### Two Claimants.

Judge L. D. Lewis, of Hyden, passed through here Thursday on his way home from Frankfort, where he had been in the interest of the circuit judge's race in the 33d Judicial District. It will be remembered that he and John C. Eversole entered into a contest for the nomination of circuit judge in that district, but the vote was so close that Eversole claimed it by two and Lewis by one. The Secretary of State refused to certify the name of either as the candidate for circuit judge. Judge Lewis, however, had the county clerks of Leslie and Letcher counties to print his name on the ballots as the Republican candidate for circuit judge of that district. Judge L. D. Lewis thinks, however, that he will succeed his cousin, John D. Lewis, who gained some notoriety by acting as special judge in the trial of one of the Hargis cases, which is well remembered by all of our readers.

## Shall We Pay Taxes to Support Our Schools?

Every nation has crystallized into its public institutions its ideals of life. To enter any community and you will find there the best interest of its people manifested in the public buildings and public exercises. If you find a community well supplied with athletic grounds, and games frequently provided, and little interest manifested in any other public enterprise, you conclude that the community is fond of athletic sports. If you enter another community and find there well built churches neatly and carefully kept, an educated minister and large congregations in attendance upon the services, you conclude that you have entered a community where religion is prominent in the thoughts of the people. Were you to find, in another community, stores and all business houses open seven days in the week and everyone entering the mad race for wealth, you infer that the community in which you are found is given over to the worship of the almighty dollar. For indeed, if the school building occupies a prominent site in any community, if its grounds are well kept, if the house is neatly furnished, if the desks new and modern, if the corps of teachers is well educated and well paid and if the community is taxing itself cheerfully and sufficiently well to keep the school going ten months in the year, you conclude that you are in a community that has placed the education of the young as its highest ambition. You know that you are among a people who are sufficiently patriotic and thoughtful for the welfare of their children to provide those things in common which alone can insure the continuation of our government and the increase of the best things among us.

It is needless for me to say that we need in Kentucky a better spirit toward our schools that we need to provide for their material improvement with a freer hand. We need an educational awakening in our pocketbooks and our bank accounts and this will come when we study the proper basis for taxation.

A good teacher, a community attracted to that community enterprise, well-to-do people who seek to take advantage of the school. If Kentucky would place herself in the most attractive position among her sisterhood of States, a great awakening along educational lines among her people will do more to accomplish this desired end than all other forces. She has already begun to feel the thrill of a better hope and a better purpose. The present generation will do well if it crystallizes Kentucky's highest ideals into sound and liberal legislation for her educational interests.

E. C. McDougale,  
Business Director, Eastern Kentucky State Normal School,  
Richmond, Ky.

### The Last Resort.

James Anderson of the Scottish-American Golf club smiled at a poor player on the Van Cortlandt park links in New York.

"He reminds me of a chap I used to know," said Mr. Anderson. "This chap played so badly that even his caddies made a butt of him."

"He got a ball badly bunkered one day, and do what he would he couldn't get it out again. Whack, whack, whack, he went, missing every time."

"After half an hour's work he wiped his wet face with his handkerchief and turned despairingly to the caddy."

"Hang it," he said, "I have tried all my clubs on this bunkered ball! What on earth am I to do now?"

"The caddy laughed heartily."

"Give it a swat with yer bag," he said.—Washington Star.

## HOLIDAY CAKES.

Reliable Formulas That Have Been Used For Years.

If but one cake is to be made for the Thanksgiving festivities none could be better than this old fashioned cake, the recipe for which has been in the family of Mrs. Charles Brown of Providence, R. I., for more than 150 years. The ingredients are: One pound of butter, one pint of milk, two and one-half pounds of flour, one cupful of yeast, two eggs, one and one-half pounds of sugar, half a pound of raisins, half a pound of currants, a quarter of a pound of citron, one whole nutmeg, grated; a tablespoonful of mace and a gill of fine brandy. The flour, the milk and half the butter are mixed with the yeast and set to rise overnight. The next morning all the other ingredients, with the exception of the fruit, are added, and the dough is left to rise for another three hours. It is then lifted into the cake pans with the aid of a skimmer, the fruit, already thoroughly mixed, being added as each skimmerful is placed in the buttered pans. Set it aside for fully half an hour that it may rise once more, and then bake it in a slow but steady oven, frost with a bottled white icing.

Nothing could be simpler to make than the drop cakes that the famous statesman, Henry Clay, loved better than any other sweet, and they are still regarded as so delicious that the members of his family are frequently called upon to supply the recipe to those who have eaten them at their table. In fact, all that is required to make these cakes is a pound of flour, a pound of sugar, three-quarters of a pound of butter and eight eggs. The ingredients are mixed together thoroughly. The dough is placed in drop cake tins and is left in a moderately hot oven until baked.

## THE FRONT WINDOW.

A Way to Make It Attractive With Hanging Baskets.

When one cannot have flowers sent in from greenhouses for winter use and delicate-huge chrysanthemums of all tints in vases high as one's shoulder, long stemmed red roses, great white lilies and plots of violets—one can give an almost equal charm to a room by means of a window garden. With its shelves and brackets and airy hanging baskets.

In default of a bow window a common window can be made attractive with care.

Of course there are expensive china hanging vases and some not so expensive. The simpler and more delicate their decoration the more choice, and there are very pretty glass baskets. The tinsel and gilded affairs are better avoided.

A HANGING BASKET.

avoided. Common earthen pots having a rim so that they can be suspended from bracket or ceiling can be made all that is desired with soft tissue paper crimped about them till their growing sprays veil them from sight.

Common woven straw and osier baskets, whose shape is legion and whose prices are reasonable, can hold a flower pot and answer all purposes. Of course, too, there are always the little log cabin baskets made of varnished sticks set crosswise, although better without the varnish, and a pretty chinaware bowl, hanging if it has sufficient slope at the top for suspension, and a choice pitcher, hung by the handle and the nose, are useful. Holes for drainage, if drainage is essential, are easily bored.

Hanging baskets may accommodate a large Boston fern, a perfect sheet of greenery, a tuft of bluest forget-me-nots kept very moist. Long sprays of the unvarnished pink ivy geranium will also be effective. Vinca and wandering Jew, the feathery anemone vine, the moneywort, the spider plant and various ferns may all be relied on to clothe the baskets with green, and for flowers one can have alyssum, nasturtiums, primroses—although these last should be handled carefully, as their touch nets as a poison to the skin of many people—the oxalis, the gladiolus and the anemone.—Delaware.

**Bedtime and Between.**

A Boston minister says that not long ago he was walking along a street in the suburbs when he came up to a little fellow, apparently about six years old, who had one thumb in his mouth and who was jumping up and down in dumb rage. He had evidently been nailing on some loose fence pickets, for a hammer and a handful of loose nails lay on the ground.

"What's the matter, my little man? Did you hurt yourself?" the minister asked.

"Kids like me ain't got no show 'tall," was the apparently irrelevant reply to the fence.

"How do you mean?" the minister asked kindly.

"Oh," was the disgusted reply, "I'm too big to cry like sis when she gets hurt and ain't big 'nough to sweat like pa when he smashes his thumb."

**The Contrary Man.**

"Silence is golden," remarked the party with the quotation habit.

"Perhaps it is," rejoined the contrary man, "but a dentist has never yet been able to fill teeth with it."—Chicago News.

**Barnyard Chatter.**

"Oh, please," asked the young hen nervously, "what's the proper way to sit on a nest?"

"Hatch-way," replied the old hen, with a sly wink.—Minneapolis Journal.

## THANKSGIVING DINNERS.

A Menu For the Smart or Old Fashioned Housekeeper.

Shall we adhere to the old fashioned dinner or serve one replete with the latest novelties propounded by chefs? This is a question which must be answered individually and governed by the tastes of those who make up our households. In any case we prepare a special menu, and one or the other of the following may serve us as a guide:

**Oyster Soup.** Baked Ham.  
**Roast Turkey.** Chicken Pie.  
**Maashed Potatoes.** Cranberry Jelly.  
**Succotash.** Creamed Squash.  
**Cold Slaw.** Pumpkin Pie.  
**Baked Indian Pudding.** Apples.  
**Nuts.** Raisins.  
**Coffee.** Cider.

Oysters on the half shell.  
Chicken Consommé.  
Sauce Tartare.  
Roast Turkey.  
Chestnut Stuffing.  
Duchesse Potatoes.  
Cauliflower.  
Cranberry Sherbet.  
Celery Mayonnaise.  
Cheese Wafers.  
Nesselrode Pudding.  
Fancy Cakes.  
Baked Nuts.  
Bonbons.

In roasting the turkey have the oven very hot. Rub the bird all over with soft butter and dredge with salt and pepper. Place it on its breast on a rack in a pan, proping it with stale bread or potatoes. Put in the oven and bake every ten minutes with a mixture of butter and water. When half done turn on its back and cover with paper to prevent burning.

A turkey weighing from eight to ten pounds will take three hours and is done when the legs will readily separate from the body. To keep the fat in the pan from burning pour in a little hot water from time to time.

When a boiled ham is one of the side dishes begin its preparation on Tuesday. Scrub and scrape off all rustiness and soak overnight. Put in a kettle with a small bunch of nice hay. Add a small bay leaf, a dozen each of cloves, peppercorns and allspice berries.

Heat slowly and simmer until the meat is tender to the bone. Lift out, remove the rind, return to the kettle and let stand in the liquor all night. Drain well, dredge with salt and pepper, spread over the top a layer of fine, dry crumbs mixed with a little of the fat from the kettle and place in a moderate oven until hot through and nicely browned.

For the duchesse potatoes on the second menu boil and mash enough to make a full quart. Season with hot butter, salt and pepper and two tablespoonfuls of thick sweet cream, a teaspoonful of onion juice, a tablespoonful of chopped parsley and three beaten egg yolks. Set aside and when cold mold in fat oval cakes. Lay on a flat pan, brush with egg yolk and brown them in a quick oven.

To make the cranberry sherbet stew one quart of cranberries with one pint of water, press through a sieve and make very sweet. Chill and begin to freeze. When half done stir in the white of one egg whipped to a stiff meringue with two tablespoonfuls of sifted powdered sugar. Work thoroughly, then freeze three hours.

Place and let stand for 15 minutes before serving.—Cornell.

**A Thanksgiving Centipede.**  
A willow basket trimmed with grain is filled with polished fruit and set on

a willow plateau filled with nuts. Oak leaves are placed on the dolly before the plateau is set on the table.

**Square Block Tucking.**  
Square block tucking, though extremely complicated, is really very simple to manage.

Ruu in the group of tucks in the center front of a lingerie waist all the way down.

Let the next two groups of up and down tucks stop halfway down and the next two groups a little higher up. This brings the fullness in prettily, and the crossing of the tucks is very decorative.

The tucks crossing should run from armpole to armpole in groups of three or four tucks.

**Mansfield's Caustic Reply.**  
A trio of prominent men called on Richard Mansfield with a request for capital to float "the greatest scheme since Colonel Sellers' time." They painted their prospects in more colors than the rainbow, and their optimistic verbiage was more brilliant than an autumn sunset.

Mr. Mansfield listened, then asked, with delicious sardonic fold, "Do you know why the Lord said to Ananias, 'Stand forth'?" Upon receiving a negative reply he said, "Well, I don't either unless it was that you three could stand first, second and third."

## IN FASHION REALM.

What Is Correct in Mourning Styles For Men and Women.

DULL KID BANGERS MODISH.

Jewels Not Good Mourning—After Months Pearls and Diamonds Permissible—Mourning Costumes Are Smart and Sensible.

Of course it goes almost without saying that hysterical mourning costumes are the kind that figure in mourning and millinery. For fall and early winter wear nothing is better than black lace.

**SMART COSTUME OF THE FUTURE.**

It is a soft, warm, wool weave and has an air of richness that is most attractive. G. W. Lloyd, a merchant of Plunk, Mo., had a narrow escape four years ago when he ran a jimson herb into his thumb. He says: "The doctor wanted to amputate it but I would not consent. I bought a box of Bucklen's Arnica Salve and that cured the dangerous wound." 25c at Jackson Drug Co.

**The Chinese and Grapes.**  
Did you ever hear how the Chinese keep grapes fresh? The method is unique and is simple enough for anybody to try it. A circular piece is cut out of a ripe pumpkin, making an opening just large enough to admit the hand. The interior is then nicely cleaned out, the grapes are put in, and the circular piece is replaced and pressed in firmly. If the pumpkin is kept fresh for an almost indefinite period. It is said that by this method the Chinese have them all the year around.—Exchange.

An Uncivilized Cow.

On a certain southern plantation the dairy hands were accustomed to do the milking squatting down in a primitive fashion until the owner introduced milking stools, with other improvements. But the initial experiment with the innovation was not exactly a success. The dairy who first sallied forth with the stool returned bruised and battered and with an empty pail.

"Ah done me lost, sah," he explained. "Dat stool looked all right to me, but de blamed cow she won't sit on it!"—Woman's Home Companion.

We have secured the agency for Orino Laxative Fruit Syrup, the new laxative that makes the liver lively, purifies the blood, cures headache and regulates the digestive organs. Cures chronic constipation. Ask us about it. Jackson Drug Co.

**Cured of Bright's Disease.**

Mr. Robert O. Burke, Elmore, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hopes of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." Jackson Drug Co.

"To me," said Mr. Burke, "it was a blessing, for I had been told that I was dying."

**He Could Not Speak.**

Pierre Nicole, one of the most distinguished scholars of the Port Royalists and one of the best writers in Europe, was noted for his readiness in oral argument. It is said that once when no opponent, having got the better of him in an argument, had left the room Nicole called out to him from the landing as he was near the street door: "Come back, come back! I have a reply ready for you!"

We continued this medicine until several bottles were used, when our boy was completely cured."

**Snakes in Australia.**

There are five kinds of venomous snakes in Victoria—the tiger snake, the black snake, the brown snake, the copperhead and the death adder. The last mentioned is very rare in Victoria and very venomous. It is about two feet long, very thick in proportion to its length, of a dull brown color and with a flat, wide head. The strongest thing about it is that many people believe its sting is contained in the tail.

**Dancing Proves Fatal.**

Many men and women catch colds at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package. Jackson Drug Co.

**British Sharks.**

British sharks are very substantial facts. The largest of them is an innocuous giant that basks in the sunshine and perhaps feeds on nothing larger than a shrimp. But the blue shark and porbeagle, both of which grow to a length of several yards and a weight of hundreds of pounds, are vicious pests and most unwelcome on the fishing grounds.

## Eels.

The eels form the suborder of the apodii, or footless fish, so called from the absence of ventral fins. These fish assume a form very similar to the serpents. Although on a hasty examination they seem to be devoid of scales, yet when the skin is dried very minute scales may be seen through the semi-transparent outer skin and may be easily detached by carefully separating the two skins. Eels inhabit muddy ponds and rivers and are common in many canals. They are susceptible to cold and constantly descend the rivers to deposit their spawn in the sea, after which the young when hatched work their way up the rivers, thereby precisely reversing the habits of the salmon. They are capable of living out of water for a long time and often make voluntary land excursions, either for the purpose of avoiding an insurmountable fall or in search of frogs or worms, on which they feed. In the winter, while they are lying torpid in the mud, multitudes are taken by eel spears—many pronged instruments, whose prongs are feathered with reversed barbs, which, when pushed into the mud, entangle the eels and effectually prevent their escape.

**My Best Friend.**

Alexander Benton, who lives on Rural Route 1, Ford Edward, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of incipient consumption for my son's wife. The first bottle ended the terrible cough, and this accomplished, the other symptoms left one by one, until he was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equaled it. Fully guaranteed by Jackson Drug Co. 50c and \$1.00. Trial bottle free.

**The Charge Against Him.**

Before the magistrate the defendant was charged with being drunk and incapable. He was a stranger in the district, but he was most acutely indignant that he should be suffering the humiliation of his present position. "The constable seems very certain about everything connected with my case," he sneered, "but there is one weak point in his evidence. Why?"

Impressively—"Does he not call his fellow officer to corroborate what he says?"

His worship turned an inquiring look upon the policeman, who vainly endeavored to conceal an expansive smile behind an ample but for that purpose all too small hand. "There's only one constable stationed in the village, sir," said the officer. "But I saw two last night!" indignantly asserted the defendant. "Exactly!" grinned the policeman. "That's just the charge against you!"

**This Is Worth Remembering.**
